Applicant hereby submits materials containing proprietary information for consideration in accordance with MPEP § 724. The materials relate to a suit involving patents to which the above-mentioned application claims priority. Specifically, the suit is CNX Gas Corporation and CNX Gas Company LLC vs. CDX Gas, LLC, Civil Action No. 05-1574 in the Western District of Pennsylvania, and concerns U.S. Patent Nos. 6,357,523; 6,561,288; 6,604,580; 6,679,322; 6,964,298; and 6,976,533. The submitted materials include the parties' filings relating to summary judgment on infringement, willfulness, validity and enforceability of the patents in suit. Proprietary information is dispersed in the submitted materials.

The information was designated for protection under the protective order entered in the case. The protective order explicitly prohibits a receiving party from using information designated under the protective order (e.g. information designated "Confidential Information" or "Confidential Attorneys Eyes Only Information") in prosecuting any patent application. Despite Applicant's attorney's request, counsel for the opposing parties would not agree to de-designate information they had designated under the protective order to enable its disclosure to the Office. Therefore, information designated by the opposing parties' counsel under the protective order
